

AWS DVA-C02

Services Reference

Kindle Edition

50 services · 113 acronyms

English / Español

Based on: Ultimate AWS Certified Developer Associate 2026 by Stéphane Maarek

Services Reference

Organized by category. Each entry: description (EN/ES), exam trigger, and source section.

Analytics

OpenSearch

Analytics / Analítica

Search any field with partial matches. Successor to ElasticSearch. Complement to DynamoDB.

Buscar cualquier campo con coincidencias parciales. Sucesor de ElasticSearch.

■ **Exam trigger:**

Search any field / partial match

Buscar cualquier campo / coincidencia parcial

→ §31 – Other Services

Athena

Analytics / Analítica

Serverless SQL on S3. Presto engine. Pay per TB scanned. Use Parquet/ORC + partitioning.

SQL serverless sobre S3. Motor Presto. Se paga por TB escaneado. Usar Parquet/ORC.

■ **Exam trigger:**

Serverless SQL on S3, Parquet, Glue ETL

SQL serverless sobre S3, Parquet, Glue ETL

→ §31 – Other Services

Auth

Cognito User Pools

Auth / Autenticación

User directory. Sign-up/in, JWT tokens, social login, MFA, hosted UI.

Directorio de usuarios. Registro/login, JWT, login social, MFA, UI hospedada.

■ **Exam trigger:**

User authentication, login, JWT

Autenticación de usuarios, login, JWT

→ §27 – Cognito

Cognito Identity Pools

Auth / Autenticación

Temporary AWS credentials for users. Federated identity for direct AWS service access.

Credenciales temporales de AWS para usuarios. Identidad federada para acceso directo.

■ **Exam trigger:**

Temporary AWS credentials, federated identity

Credenciales temporales, identidad federada

→ §27 – Cognito

CI/CD

CodeCommit

CI/CD / CI/CD

Managed Git repo. Private repos, IAM-based auth. Being retired.

Repositorio Git administrado. Repos privados, autentificacion IAM. En proceso de retiro.

■ **Exam trigger:**

Private Git repo, source control

Repositorio Git privado, control de fuente

→ §24 – CI/CD

CodeBuild

CI/CD / CI/CD

Managed build service. Compiles, tests, artifacts. Defined via buildspec.yml.

Servicio de build administrado. Compila, testea, produce artefactos. Via buildspec.yml.

■ **Exam trigger:**

Build and test code, CI, buildspec.yml

Compilar y testear codigo, CI, buildspec.yml

→ §24 – CI/CD

CodeDeploy

CI/CD / CI/CD

Automated deployments to EC2, Lambda, ECS. In-Place, Blue/Green, Canary, Linear. appspec.yml.

Deploys automatizados a EC2, Lambda, ECS. In-Place, Blue/Green, Canary, Linear. appspec.yml.

■ **Exam trigger:**

Deploy to EC2/Lambda/ECS, blue/green

Deploy a EC2/Lambda/ECS, blue/green

→ §24 – CI/CD

CodePipeline

CI/CD / CI/CD

CI/CD pipeline orchestration. Source to Build to Test to Deploy.

Orquestacion de pipelines CI/CD. Desde Source hasta Deploy.

■ **Exam trigger:**

Full CI/CD pipeline orchestration

Orquestacion completa de pipeline CI/CD

→ §24 – CI/CD

Compute

EC2

Compute / Computo

Virtual servers. Instance types, On-Demand/Reserved/Spot, AMIs, user data.

Servidores virtuales. Tipos de instancia, On-Demand/Reserved/Spot, AMIs, user data.

■ **Exam trigger:**

Virtual machines, instance types, AMIs

Maquinas virtuales, tipos de instancia, AMIs

→ §05 – EC2

ASG

Compute / Computo

Auto Scaling Group. Adds/removes EC2 instances based on demand. Works with ELB.

Grupo de auto escalado. Agrega/elimina instancias EC2 segun la demanda. Trabaja con ELB.

■ **Exam trigger:**

Auto scaling, dynamic capacity, scale in/out

Auto escalado, capacidad dinamica

→ §07 – ELB & ASG

Elastic Beanstalk

Compute / Computo

PaaS. Manages EC2, ELB, ASG automatically. Multiple deploy modes (rolling, blue/green, immutable).

PaaS. Administra EC2, ELB, ASG automaticamente. Múltiples modos de deploy.

■ **Exam trigger:**

PaaS, deploy app without managing infra

PaaS, deployar app sin gestionar infraestructura

→ §17 – Beanstalk

Containers

ECS / Fargate

Containers / Contenedores

Container orchestration. ECS on EC2: you manage servers. Fargate: serverless containers.

Orquestacion de contenedores. ECS en EC2: manejas servidores. Fargate: contenedores serverless.

■ **Exam trigger:**

Docker containers, serverless containers, task definitions

Contenedores Docker, contenedores serverless

→ §16 – ECS/Fargate

ECR

Containers / Contenedores

Elastic Container Registry. Private Docker image registry. Integrated with ECS and CodeBuild.

Registro privado de imagenes Docker. Integrado con ECS y CodeBuild.

■ **Exam trigger:**

Docker registry, container images

Registro Docker, imagenes de contenedores

→ §16 – ECS/Fargate

Database

RDS

Database / Base de datos

Managed relational DB (MySQL, PostgreSQL, Oracle, SQL Server). Multi-AZ, Read Replicas, backups.

BD relacional administrada. Multi-AZ, Read Replicas, backups.

■ **Exam trigger:**

Relational DB, SQL, managed database

BD relacional, SQL, base de datos administrada

→ §08 – RDS/Aurora/Cache

Aurora

Database / Base de datos

AWS-proprietary relational DB. MySQL/PostgreSQL compatible. 5x faster. Serverless option.

BD relacional propia de AWS. Compatible MySQL/PostgreSQL. 5x mas rapida. Opcion serverless.

■ **Exam trigger:**

High-performance relational DB, Aurora Serverless

BD relacional de alto rendimiento, Aurora Serverless

→ §08 – RDS/Aurora/Cache

ElastiCache

Database / Base de datos

Managed in-memory cache. Redis (persistence, pub/sub, Sorted Sets) or Memcached (simple).

Cache en memoria administrado. Redis (persistencia, pub/sub) o Memcached (simple).

■ **Exam trigger:**

In-memory cache, reduce DB load, session store

Cache en memoria, reducir carga de BD, sesiones

→ §08 – RDS/Aurora/Cache

DynamoDB

Database / Base de datos

Managed NoSQL key-value. Single-digit ms latency. GSI, LSI, Streams, DAX, TTL, Transactions.

NoSQL key-value administrado. Latencia de un dígito ms. GSI, LSI, Streams, DAX, TTL, Transacciones.

■ Exam trigger:

NoSQL, key-value, serverless DB

NoSQL, key-value, BD serverless

→ §22 – DynamoDB

Dev Tools

AppConfig

Dev Tools / Herramientas Dev

Dynamic config without redeploying. Feature flags, gradual rollout, CloudWatch rollback.

Config dinámica sin redeploy. Feature flags, rollout gradual, rollback via CloudWatch.

■ Exam trigger:

Feature flags, dynamic config without redeploy

Feature flags, config dinámica sin redeploy

→ §31 – Other Services

IaC

CloudFormation

IaC / IaC

IaC with JSON/YAML templates. Stacks, drift detection, nested stacks, StackSets.

IaC con plantillas JSON/YAML. Stacks, detección de drift, stacks anidados, StackSets.

■ Exam trigger:

IaC, templates, stacks, infra automation

IaC, plantillas, stacks, automatización de infra

→ §18 – CloudFormation

CDK

IaC / IaC

Define infra in TypeScript/Python/Java. Compiles to CloudFormation. L1/L2/L3 constructs.

Define infra en TypeScript/Python/Java. Compila a CloudFormation. Construye L1/L2/L3.

■ Exam trigger:

IaC in real code, cdk synth/deploy

IaC en código real, cdk synth/deploy

→ §26 – CDK

Messaging

SQS

Messaging / Mensajería

Message queues. Standard (at-least-once) or FIFO (exactly-once, ordered). Visibility timeout, DLQ.

Colas de mensajes. Standard (al menos una vez) o FIFO (exactamente una vez, ordenado). DLQ.

■ Exam trigger:

Queue, decouple services, async processing

Cola, desacoplar servicios, procesamiento asíncrono

→ §19 – SQS/SNS/Kinesis

SNS

Messaging / Mensajería

Pub/Sub. Fan-out to SQS, Lambda, email, HTTP. FIFO SNS available.

Pub/Sub. Fan-out a SQS, Lambda, email, HTTP. SNS FIFO disponible.

■ Exam trigger:

Pub/sub, fan-out, notifications

Pub/sub, fan-out, notificaciones

→ §19 – SQS/SNS/Kinesis

Monitoring

CloudWatch

Monitoring / Monitoreo

Metrics, logs, alarms, dashboards. Log Groups, Metric Filters, EventBridge.

Métricas, logs, alarmas, dashboards. Log Groups, Metric Filters, EventBridge.

■ Exam trigger:

Metrics, alarms, logs, monitoring

Métricas, alarmas, logs, monitoreo

→ §20 – Monitoring

X-Ray

Monitoring / Monitoreo

Distributed tracing. Traces requests across services. Segments, subsegments, annotations.

Trazado distribuido. Rastrea requests entre servicios. Segmentos, subsegmentos, anotaciones.

■ Exam trigger:

Distributed tracing, debug microservices

Trazado distribuido, debug de microservicios

→ §20 – Monitoring

CloudTrail

Monitoring / Monitoreo

Audit log of all AWS API calls. Who did what, when. Management + data events.

Log de auditoria de todas las llamadas a la API de AWS. Quien hizo que, cuando.

■ **Exam trigger:**

Audit, API call history, compliance

Auditoria, historial de llamadas API, compliance

→ §20 – Monitoring

Networking

ELB / ALB / NLB

Networking / Redes

ALB: HTTP/HTTPS Layer 7. NLB: TCP/UDP Layer 4, ultra-low latency. GWLB: 3rd-party appliances.

ALB: HTTP/HTTPS Capa 7. NLB: TCP/UDP Capa 4, latencia ultra baja. GWLB: appliances de terceros.

■ **Exam trigger:**

Load balancing, HTTP routing, SSL termination

Balanceo de carga, enrutamiento HTTP, SSL

→ §07 – ELB & ASG

Route 53

Networking / Redes

Managed DNS. Routing: Simple, Weighted, Latency, Failover, Geolocation, Multi-Value.

DNS administrado. Simple, Ponderado, Latencia, Failover, Geolocalizacion, Multi-Valor.

■ **Exam trigger:**

DNS routing, health checks, domain management

Enrutamiento DNS, health checks, dominios

→ §09 – Route 53

VPC

Networking / Redes

Virtual Private Cloud. Subnets, route tables, IGW, NAT Gateway, Security Groups, NACLs, VPC Peering.

Nube privada virtual. Subredes, tablas de rutas, IGW, NAT Gateway, Security Groups, NACLs.

■ **Exam trigger:**

Network isolation, subnets, VPC peering

Aislamiento de red, subredes, VPC peering

→ §10 – VPC

CloudFront

Networking / Redes

CDN with 400+ edge locations. Caches globally. OAC for S3 security. Lambda@Edge.

CDN con 400+ ubicaciones. Cache global. OAC para seguridad S3. Lambda@Edge.

■ Exam trigger:

CDN, edge caching, global distribution, DDoS

CDN, cache en edge, distribucion global, DDoS

→ §15 – CloudFront

Other

SES

Other / Otros

Send/receive emails via SMTP or SDK. Inbound triggers S3, SNS, Lambda.

Enviar/recibir emails via SMTP o SDK. Los entrantes disparan S3, SNS, Lambda.

■ Exam trigger:

Email send or receive = SES

Email enviar o recibir = SES

→ §31 – Other Services

Security

IAM

Security / Seguridad

Users, groups, roles, policies. Controls who can do what in AWS.

Usuarios, grupos, roles, politicas. Controla quien puede hacer que en AWS.

■ Exam trigger:

Permissions, roles, cross-account access

Permisos, roles, acceso cross-account

→ §04 – IAM & CLI

STS

Security / Seguridad

Temporary credentials. AssumeRole, AssumeRoleWithWebIdentity. Cross-account access.

Credenciales temporales. AssumeRole, AssumeRoleWithWebIdentity. Acceso cross-account.

■ Exam trigger:

Temporary credentials, AssumeRole, cross-account

Credenciales temporales, AssumeRole, cross-account

→ §29 – Identity

KMS

Security / Seguridad

Encryption keys. Symmetric/asymmetric. Envelope encryption for >4KB. Key policies, rotation.

Claves de cifrado. Simetrico/asimetrico. Envelope encryption para >4KB. Politicas de clave, rotacion.

■ Exam trigger:

Encryption keys, encrypt/decrypt, envelope encryption

Claves de cifrado, cifrar/descifrar, envelope encryption

→ §30 – Security

SSM Parameter Store

Security / Seguridad

Config and secrets. /path hierarchy. Standard (free) vs Advanced. No auto-rotation.

Config y secretos. Jerarquia /path. Standard (gratis) vs Advanced. Sin rotacion automatica.

■ Exam trigger:

Config/secrets storage, no auto-rotation

Almacenamiento de config/secretos, sin rotacion

→ §30 – Security

Secrets Manager

Security / Seguridad

Secrets with automatic rotation. Native RDS integration.

Secretos con rotacion automatica. Integracion nativa con RDS.

■ Exam trigger:

Secrets with auto-rotation, RDS credentials

Secretos con rotacion automatica, credenciales RDS

→ §30 – Security

CloudHSM

Security / Seguridad

Single-tenant HSM. FIPS 140-2 Level 3. You fully manage keys, AWS has zero access.

HSM de un solo tenant. FIPS 140-2 Level 3. Vos manejas las claves, AWS no tiene acceso.

■ Exam trigger:

Dedicated HSM, FIPS 140-2 Level 3, full key control

HSM dedicado, FIPS 140-2 Level 3, control total de claves

→ §30 – Security

ACM

Security / Seguridad

Free public TLS/SSL certs, auto-renewal. Loads onto ELB, CloudFront, API Gateway.

Certificados TLS/SSL publicos gratis, renovacion automatica.

■ Exam trigger:

TLS/SSL certs, HTTPS, ELB/CloudFront/API GW

Certificados TLS/SSL, HTTPS, ELB/CloudFront/API GW

→ §31 – Other Services

ACM Private CA

Security / Seguridad

Private CA for internal X.509 certs. Internal TLS, PKI, IoT device auth.

CA privada para certificados X.509 internos. TLS interno, PKI, autenticación de dispositivos IoT.

■ **Exam trigger:**

Private certs, internal TLS, enterprise PKI

Certificados privados, TLS interno, PKI empresarial

→ §31 – Other Services

Macie

Security / Seguridad

ML-based PII discovery in S3. Findings go to EventBridge.

Descubrimiento de PII en S3 via ML. Los hallazgos van a EventBridge.

■ **Exam trigger:**

Discover PII / sensitive data in S3

Descubrir PII / datos sensibles en S3

→ §31 – Other Services

Serverless

Lambda

Serverless / Serverless

Serverless functions. Event-driven, auto-scaling. 15 min max, 10 GB RAM. Layers, destinations, VPC.

Funciones serverless. Orientado a eventos, auto escalado. 15 min max, 10 GB RAM.

■ **Exam trigger:**

Serverless compute, event-driven, FaaS

Computo serverless, orientado a eventos, FaaS

→ §21 – Lambda

API Gateway

Serverless / Serverless

Managed API layer. REST, HTTP, WebSocket. Stages, throttling, caching, Lambda/Cognito authorizers.

Capa de API administrada. REST, HTTP, WebSocket. Stages, throttling, cache, autorizadores.

■ **Exam trigger:**

REST API, WebSocket, frontend for Lambda

REST API, WebSocket, frontend para Lambda

→ §23 – API Gateway

Step Functions

Serverless / Serverless

Visual workflow orchestration. State machines: Task, Choice, Wait, Parallel, Map.
Orquestacion visual de workflows. Maquinas de estado: Task, Choice, Wait, Parallel, Map.

■ **Exam trigger:**

Workflow orchestration, coordinate Lambda
Orquestacion de workflows, coordinar Lambdas

→ §28 – Step Fn/AppSync

AppSync

Serverless / Serverless

Managed GraphQL API. Real-time subscriptions, offline sync. Resolvers: DynamoDB, Lambda, HTTP.

API GraphQL administrada. Suscripciones en tiempo real, sync offline.

■ **Exam trigger:**

GraphQL API, real-time data, offline sync
API GraphQL, datos en tiempo real, sync offline

→ §28 – Step Fn/AppSync

Serverless / IaC

SAM

Serverless / IaC / Serverless / IaC

CloudFormation extension for Lambda, API Gateway, DynamoDB. Local testing via sam local.

Extension de CloudFormation para Lambda, API Gateway, DynamoDB. Testing local via sam local.

■ **Exam trigger:**

Serverless IaC, sam build/deploy, local testing
IaC serverless, sam build/deploy, testing local

→ §25 – SAM

Storage

EBS

Storage / Almacenamiento

Persistent block storage for EC2. gp2/gp3, io1/io2, sc1/st1. Snapshots to S3.

Almacenamiento en bloque persistente para EC2. gp2/gp3, io1/io2, sc1/st1. Snapshots a S3.

■ **Exam trigger:**

Block storage, persistent disk, EC2 volume
Almacenamiento en bloque, disco persistente

→ §06 – EC2 Storage

EFS

Storage / Almacenamiento

Managed NFS shared file system across multiple EC2 and AZs. Auto-scales.

Sistema de archivos NFS compartido entre multiples EC2 y AZs. Escala automaticamente.

■ **Exam trigger:**

Shared file system, NFS, multi-AZ

Sistema de archivos compartido, NFS, multi-AZ

→ §06 – EC2 Storage

S3

Storage / Almacenamiento

Object storage. Buckets, versioning, lifecycle, storage classes. Presigned URLs, CORS.

Almacenamiento de objetos. Buckets, versionado, ciclo de vida. URLs pre-firmadas, CORS.

■ **Exam trigger:**

Object storage, static hosting, backups

Almacenamiento de objetos, hosting estatico, backups

→ §11 – S3

Streaming

Kinesis Data Streams

Streaming / Streaming

Real-time streaming. Shards, 1 MB limit. Retention 1-365 days. Producers and consumers.

Streaming en tiempo real. Shards, limite 1 MB. Retencion 1-365 dias.

■ **Exam trigger:**

Real-time streaming, shards, clickstreams

Streaming en tiempo real, shards, clickstreams

→ §19 – SQS/SNS/Kinesis

Kinesis Data Firehose

Streaming / Streaming

Near real-time delivery to S3, Redshift, OpenSearch, Splunk. No shards. Optional Lambda transform.

Entrega casi en tiempo real a S3, Redshift, OpenSearch, Splunk. Sin shards.

■ **Exam trigger:**

Near real-time, load data to S3/Redshift

Casi tiempo real, cargar datos a S3/Redshift

→ §19 – SQS/SNS/Kinesis

MSK

Streaming / Streaming

Managed Kafka. Alternative to Kinesis. Message size >1 MB configurable. Unlimited retention.

Kafka administrado. Alternativa a Kinesis. Tamano de mensaje >1 MB. Retencion ilimitada.

■ Exam trigger:

Managed Kafka, >1MB messages, unlimited retention

Kafka administrado, mensajes >1MB, retencion ilimitada

→ §31 – Other Services

Acronym Dictionary

113 acronyms from DVA-C02, sorted A–Z.

A

ACL

Access Control List

ACM

AWS Certificate Manager

ALB

Application Load Balancer

AMI

Amazon Machine Image

API

Application Programming Interface

ARN

Amazon Resource Name

ASG

Auto Scaling Group

AZ

Availability Zone

B

BI

Business Intelligence

BYOL

Bring Your Own License

C

CA

Certificate Authority

Entidad que emite y firma certificados digitales

CDK

Cloud Development Kit

CDN

Content Delivery Network

CIDR

Classless Inter-Domain Routing

CLI

Command Line Interface

CMK

Customer Managed Key

KMS key propia - \$1/mes, control total

CORS

Cross-Origin Resource Sharing

CPU

Central Processing Unit

CRR

Cross-Region Replication

CSV

Comma-Separated Values

D

DAX

DynamoDB Accelerator

Cache en memoria para DynamoDB

DDoS

Distributed Denial of Service

DEK

Data Encryption Key

En envelope encryption cifra los datos; la KMS key cifra el DEK

DLQ

Dead Letter Queue

Cola de mensajes fallidos

DNS

Domain Name System

E

EBS

Elastic Block Store

EC2

Elastic Compute Cloud

ECR

Elastic Container Registry

ECS

Elastic Container Service

EFS

Elastic File System

EKS

Elastic Kubernetes Service

ELB

Elastic Load Balancer

ENI

Elastic Network Interface

ETL

Extract, Transform, Load

F

FIFO

First In, First Out

FIPS

Federal Information Processing Standards

CloudHSM es FIPS 140-2 Level 3

FQDN

Fully Qualified Domain Name

FTP

File Transfer Protocol

G

GSI

Global Secondary Index

DynamoDB

GWLB

Gateway Load Balancer

H

HA

High Availability

HDD

Hard Disk Drive

HSM

Hardware Security Module

Dispositivo físico para operaciones criptograficas

HTTP

HyperText Transfer Protocol

HTTPS

HyperText Transfer Protocol Secure

I

IaaS

Infrastructure as a Service

IAM

Identity and Access Management

IGW

Internet Gateway

IMDS

Instance Metadata Service

IOPS

Input/Output Operations Per Second

IoT

Internet of Things

IP

Internet Protocol

J

JSON

JavaScript Object Notation

K

KCL

Kinesis Client Library

KDF

Kinesis Data Firehose

KDS

Kinesis Data Streams

KMS

Key Management Service

KPL

Kinesis Producer Library

L

LSI

Local Secondary Index

DynamoDB

M

MFA

Multi-Factor Authentication

ML

Machine Learning

MSK

Managed Streaming for Apache Kafka

Alternativa a Kinesis - >1MB, retencion ilimitada

N

NAT

Network Address Translation

NLB

Network Load Balancer

NoSQL

Not Only SQL

O

OAC

Origin Access Control

OLTP

Online Transaction Processing

ORC

Optimized Row Columnar

Formato columnar para Athena - menos datos = menor costo

OSI

Open Systems Interconnection

P

PII

Personally Identifiable Information

Informacion de identificacion personal

PKI

Public Key Infrastructure

Sistema de CAs y certificados. ACM Private CA crea PKI en AWS.

R

RAID

Redundant Array of Independent Disks

RAM

Random Access Memory

RCU

Read Capacity Unit

DynamoDB

RDP

Remote Desktop Protocol

RDS

Relational Database Service

RRU

Read Request Unit

DynamoDB On-Demand

S

SAM

Serverless Application Model

SDK

Software Development Kit

SES

Simple Email Service

Envia y recibe emails - Email = SES

SFTP

Secure File Transfer Protocol

SHA

Secure Hash Algorithm

SLA

Service Level Agreement

SLD

Second Level Domain

SMTP

Simple Mail Transfer Protocol

Protocolo estandar para envio de emails

SNI

Server Name Indication

SNS

Simple Notification Service

SOA

Start of Authority

Registro administrativo DNS

SQL

Structured Query Language

SQS

Simple Queue Service

SRR

Same-Region Replication

SSD

Solid State Drive

SSE

Server-Side Encryption

SSE-C

SSE with Customer-Provided Keys

S3: vos provees la clave por request

SSE-KMS

SSE with KMS Keys

S3: cifrado con KMS key, auditable

SSE-S3

SSE with S3-Managed Keys

S3: claves propias de AWS, transparente

SSH

Secure Shell

SSL

Secure Sockets Layer

SSM

Systems Manager

SSRF

Server-Side Request Forgery

STS

Security Token Service

T

TCP

Transmission Control Protocol

TLD

Top Level Domain

TLS

Transport Layer Security

TTL

Time to Live

U

U2F

Universal 2nd Factor

UDP

User Datagram Protocol

V

vCPU

Virtual CPU

VPC

Virtual Private Cloud

VPN

Virtual Private Network

W

WCU

Write Capacity Unit

DynamoDB

WRU

Write Request Unit

DynamoDB On-Demand
